

West Middle School Gifted & Talented Students Tour STEM Classes at Pioneer Tech

West Middle School 6th grade Gifted and Talented students recently visited Pioneer Technology Center in Ponca City to tour their STEM (Science, Technology, Engineering and Mathematics) classes. Pioneer Tech students did various hands-on activities with West students. West Middle School Counselor Lynetta Rochelle said, "Our students learned so much! Pioneer Tech rotated 56 students in small groups through their Pre-Engineering, Bio-Med, Cyber Security and Pre-Nursing programs. They graciously bused a group of our students in the morning and another group in the afternoon. We appreciate this great opportunity for our students."
